

AJITH M

Mysore Road Bangalore-39 | xxxxxxxxx | ajithcareerseeker@gmail.com

Education

- **Bengaluru Institute of Technology**
 - Master of Computer Applications (**MCA**) |, Bengaluru, Karnataka | Year of Graduation: [2023]
- **Seshadripuram Academy of Business Studies**
 - Bachelor of Computer Applications (**BCA**) | Bengaluru, Karnataka | Year of Graduation: [2020]

Skills

- Technical Skills
 - MERN Stack Developer: Basic in MongoDB, Express.js, React.js, and Node.js for building web applications.
 - Redux Toolkit: Basic in efficient global state management for React applications.
 - Version Control (Git and GitHub - Basic)
 - Postman: Familiarity with API testing and debugging using Postman.
 - Render: Experience in deploying and hosting web applications using Render.

University Project:

- Project Title: “**SGPA Calculator**” (Web Application)
- Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Project Summary: Built a web app with the MERN stack to replace manual SGPA calculation in Excel sheets. Students now enter their marks online, get instant results. This saves time, reduce, and improves data management for both students and staff.

Personal Projects

- Project Title: “**MERN Authentication project**”
- Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Redux Toolkit, Firebase Storage
- Project Summary: The project showcases my proficiency in building secure and scalable authentication systems while integrating additional features like user image updates.
- **MORE PROJECT LIKE – CRUD application (MERN), Todo application (MERN)**

Additional

Languages: Tamil, Kannada and English

Tools and technologies: HTML5, CSS3 , tailwind CSS and JavaScript

Certificate: Full Stack Development using React JS & Firebase from TechieAid
